

## More design for the electrical system with AVE: touch, traditional and toggle switches

***To complete the electrical system, AVE offers solutions for every style: touch, traditional and toggle switches combine with stylish front plates - available in many different colours, finishes and materials.***

Innovation for AVE means technology, aesthetics and exaltation of lifestyles. Each AVE collection is dedicated to a different way of living and spaces' interpreting, so installers, architects and interior designers can have maximum design freedom and always find a perfect solution to meet the client's style and budget needs. In fact, **AVE offers many different designs, finishes and materials to customize the electrical system:**

- **Retro designs:** the past is in fashion. AVE Style collections retrieve toggle controls' system make it topical again through front plates in aluminium, glass, Corian® (**New Style 44**) and wood (**England Style 44**). The missing touch to give a new meaning to interior design.
- **Ave Touch, the light in a tap.** AVE makes touch technology a daily reality offering different design solutions. AVE offers three different lines of touch front plates: in glass (**Vera Touch**) and aluminium (**Allumia Touch**), that are also available in **Multi-Touch** versions with up to 6 commands, and in moulded (**Young Touch**).
- **Traditional switches and front plates,** a stylish choice. AVE presents several lines of traditional switches, in the typical colours of wiring accessories series S44, that are combinable with front plates in metal (**Zama 44**), in glass, wood, Corian® and aluminium (**Vera 44**), in moulded (**Young 44, Moulded 44**) and with customizable front plates (**Personal 44**).

**Flexibility and costs' scalability.** The wide range of the AVE S44 series allows you to create unique and personalized environments. **All AVE S44 front plates** – from plastic version to top front plates in glass and wood – **are compatible with AVE S44 wiring accessories series.** It's very easy to find the perfect combination to meet aesthetics and costs' requirements of each customer.

**More design for the electrical system with AVE.** In addition to its strong commitment to technology, AVE focused on aesthetics, offering **refined designs**, especially in materials, combining tradition, innovation and, above all, celebrating the personality of those who match them with their interiors, as a true signature of style.
