

AVE hotel automation: download the new design and technology brochure

The new brochure Advanced Hotel Management System is available: a concentration of technology and design that illustrates the AVE hotel automation proposal.

In the Download Area of www.ave.it and www.domotichotel.com it's possible to download the new brochure of **DOMINA Hotel, AVE hotel automation brand**, that revolutionizes the **hotel sector** through **technological and aesthetic innovations**.

DOMINA Hotel marks an important development with respect to hotel industry standards. It represents cutting-edge research solutions and advanced design flexibly fully meeting hotel management needs ranging from small hotels to the large multinational hotel chains. **An AVE tagged revolution, entirely made in Italy**. A scalable system that can be implemented over time, that is efficient, optimized and reliable. It integrates perfectly with AVE home automation, with invoicing and centralized AC systems to easily adapt to all needs, both in terms of costs and performance. For technology lovers, **new smart features** are also available in order to support the AVE hotel automation proposal through **room touch screens** and the possibility for guests to manage automations also via **smartphone**.

DOMINA Hotel is a stylish choice. All devices, switches to card readers, thermostats to sockets, are aesthetically matched with the surrounding ones to give the hotel a unique and nonpareil atmosphere.
