

From Dubai to Tehran, AVE at the most important fairs

AVE inaugurates the 2017 with Middle East Electricity in Dubai, the largest international trade event for the power industry. Hosted by the UAE Ministry of Energy and based in Dubai World Trade Centre, Middle East Electricity has involved the greatest interpreters of the electric industry. From February 14 to 16, AVE has exposed its technologies and innovative proposals, that celebrate the Made in Italy as a meaningful international heritage.

AVE stands out also for design. Each AVE's product is designed as integrated furniture element. For this reason, Ave will participate to "**4 serviced apartment to 4 original people**" and "**3 Suites 4 seven Stars**", two important events conceived and organized by the renowned architect Simone Micheli. During Fuori Salone exhibition, from April 4 to 9, Milan will welcome innovative spaces, where AVE solutions dedicated to the hotel industry will increase the technological elegance of these environments: a contemporary anticipation of tomorrow's hospitality.

AVE and Simone Micheli, who for years worked with Italian Company creating prestigious projects as the Barcelò Milan Hotel, will take also part in the important Tehran conference "**Luxury Italian style in architecture and interior design for a new hospitality**". On May 25, the Iranian capital will host a great event, presided by Simone Micheli, who will focus to the whole series of peculiarities that distinguish the Made in Italy in hospitality's architecture and interior design. The Made in Italy is a value on which AVE has built its company philosophy. In fact, AVE has recently won the important award "100 Italian excellence."

The rich calendar of events will continue in Italy. AVE will have many opportunities to show its high quality electric and electronic equipment.
