AVE Domus 100 Emergency Intercom System

AVE introduces an extremely reliable and high-quality Emergency Call System; it's convenient, easy to install and to use, perfectly matched to all System 44 aesthetics and already available in a practical basic KIT.

Designed to meet the most stringent healthcare needs, **AVE Domus 100 Emergency Call System** guarantees maximum flexibility offering state-of-the-art technological solutions - enhanced by the unique System 44 aesthetics - at an affordable cost.

It's a **simple and complete Emergency electromechanical Call System** realized with relays, that integrates local Request and Reset devices and optical-acoustic signal devices. Thanks to its simplicity, **AVE Domus 100 Emergency Call System** easily installable, satisfies the most stringent system requirements, with the possibility to set the **optical signal** as fixed or flashing, and the **acoustic signal** as continuous sound or at intervals of 3 seconds to 1 minute.

Furthermore, it is extremely simple to use and intuitive. The user only has to act on the **button** or via the **cord operated push-button** to make the emergency call. Immediately the relay will activate the optical and acoustic signals. Intervening in the room, the assistant can **reset** them by acting on the button placed inside the room or by any buttons connected for the **silencing**.

The **AVE Domus 100 emergency Call system** is also innovative from aesthetic point of view. The **universal S44 support** allows to complete the emergency call system with all the **S44 front plates** - from plastic version to top front plates in glass and aluminium. The visible elements of the system are proposed in the elegant **white colour** (RAL 9010) - typical of Domus 100 wiring accessories series. The installer can therefore rely on a complete range of solutions to best integrate the **emergency call system** in the electrical one.

AVE Domus 100 Emergency Call System is already available in the practical **basic KIT** (code KITCHIAMATADOM), which includes:

Ave Code		*Qty.*
441087C	Call system relay 12Vac/dc	1
441081	Auxiliary alarm bell 86dB 10÷28Vac/dc	1
441082ALI	Power supply 230Vca/12Vcc 5W	1
442076	Prominent lamp holder	1
0212LDW/E10HI	High intensity led lamp 12V~ E10 10x22 mm - white colour	1
441050	Switch push (1P NA 10A) to make retractive with "RESET"	1
441017	Cord switch pull to make retractive 1P 10A NO	1
44A03	Frames with screws for 3 modules rectangular boxes 3	3

Experiencing the advantages of the **AVE Domus 100 emergency call system** is even more convenient. In an area where **safety** and **reliability** are paramount, this solution presents itself as an **effective and optimal response**, offering high standards in both of these terms.
