

AVE New Style 44 in glass: a retro concept with a modern accent

A sophisticated brilliant concept; available in two different versions with retro design, toggle controls and only the best of AVE technology.

New Style 44 glass collections represent a precise choice by **AVE** to meet the needs of the most demanding customers. The precious bright and shiny exclusivity of glass is combined with the **innovative AVE toggle controls** to give life to aesthetic lines never seen before, a mix of retro and modern style.

Between past and present: inserted within AVE "retro" range, **New Style 44 glass collections** retrieve the the ON/OFF toggle system, making it topical again and valorising it through elegant glass front plates, **in white and absolute black version.**

New Style 44 glass concepts reinterpret the way you turn on the light. Hidden behind toggle controls, there is only the best of **AVE technology:** electric diverters, buttons, rolling blind switches and switches with illuminated feedback status. A modern original contact to customize your private space with **a unique style.**

Available both for round and rectangular boxes, these proposals meet the needs of the wider international market. AVE New Style glass collections combine with **Domus 100** wiring accessories series, for those who want white elements, and **TEKLA 44**, the latest AVE wiring accessories series that increases flexibility, offering all System 44 solutions in opaque black coloration.

With the introduction of New Style 44 collection, AVE is now able to offer an extensive range of glass front plates, all aesthetically coordinated with each other. Installers, architects and designers can thus create mixed systems where the **New Style 44 and/or Vera Touch front plates** are inserted into the most visible points, while emergency lights and other devices can be completed with **traditional front plates (Vera 44)**, creating a full integrated electric system.

New Style 44 glass collections are just some of **AVE "retro" range**, that also offers **natural or anthracite brushed aluminium** front plates (New Style 44), white **Corian® front plates** (New Style 44) and **walnut wood ones** (England Style 44). A complete range to find in the past a priceless treasure.
