

AVE has achieved the UNI EN ISO 14001:2015 certification

This certification confirms AVE's commitment to the environment, between sustainable processes and conscious management of resources.

AVE has achieved UNI EN ISO 14001:2015 certification, the international standard that certifies responsible and sustainable environmental management. This achievement represents an important step in the company's strategy, which places sustainability and respect for the environment at the heart of its activities.

The UNI EN ISO 14001:2015 certification testifies to AVE's concrete commitment:

- Through an **internationally recognized environmental management system**.
- **To reduce its environmental impact** through more efficient and sustainable processes.
- As a company increasingly focused on **respecting the planet and future generations**.

AVE believes that innovation must go hand in hand with environmental protection.

The UNI EN ISO 14001:2015 certification represents a further step in the company's commitment to a greener future, helping to ensure a balance between technological progress and respect for nature.

This important milestone is the result of the commitment of the AVE team and its employees, who will continue to strive to achieve new goals in the field of sustainability.

AVE will continue on its path of environmental responsibility, investing in sustainable practices and encouraging a more conscientious approach to the environment.
